PROFESSIONAL SUMMARY

Final-year Computer Science student with strong expertise in full-stack development using Java, Spring Boot, Reactjs, and JavaScript. Proficient in designing and building scalable REST APIs and responsive web applications. Skilled in MySQL database management and collaborative problem-solving. Passionate about Data Structures & Algorithms and developing real-world software solutions with focus on code quality and best practices.

EDUCATION

B.Sc in Computer Science (Security Systems)
Subbalakshmi Lakshmipathy College of Science, Madurai

TECHNICAL SKILLS

Programming Languages	Java, JavaScript, SQL
Frontend	HTML5, CSS3, JavaScript, Reactjs, Tailwind CSS
Backend	Spring Boot, REST APIs
Database	MySQL
Tools & Platforms	Git, GitHub, VS Code, IntelliJ IDEA, Maven, npm, Postman

PROJECTS

- CineBot — Netflix-Inspired Movie Discovery Platform | Reactjs, TMDB API, MySQL, Spring Boot**
- Engineered a feature-rich movie and anime discovery platform with advanced genre-based filtering and personalized recommendations.
 - Integrated TMDB API to deliver real-time access to comprehensive movie/anime database with dynamic content rendering.
 - Implemented AI-powered chatbot with genre-specific suggestion engine and knowledge base for interactive user engagement.
 - Designed responsive dark-themed UI with Reactjs and Tailwind CSS for enhanced user experience.
- SocialFlow AI — AI-Powered Social Media Scheduling & Marketing Platform | React.js, Tailwind CSS, Spring Boot, MySQL, JWT, REST APIs**
- Developing a full-stack social media management platform for restaurants, cafes, and multi-location businesses to manage digital marketing from a centralized dashboard.
 - Built a React.js and Tailwind CSS frontend with modules for branch management, scheduled posts, email campaigns, analytics, and notifications.
 - Developed a Spring Boot REST API backend integrated with MySQL and JWT-based authentication for secure access and persistent data management.
 - Implementing AI-assisted caption generation and post scheduling for Instagram, Facebook, X/Twitter, TikTok, and YouTube.
 - Designed analytics and marketing features to help businesses monitor activity and manage campaigns efficiently.
- Chat & Event Reservation System | Spring Boot, Thymeleaf, Bootstrap 5, MySQL**
- Architected a Discord/Eventbrite-inspired platform with real-time chat messaging and event management capabilities.
 - Implemented Spring Boot microservices with robust REST APIs for chat operations and event scheduling.
 - Designed dark-themed responsive UI using Bootstrap 5 with intuitive navigation and user interaction flows.
 - Integrated MySQL for persistent storage of user data, chat history, and event information.

INTERNSHIP EXPERIENCE

- | | |
|---|---------------------------------------|
| Java Development Intern | CodeAlpha (Virtual Internship) |
| <ul style="list-style-type: none">Completed hands-on projects including Student Grade Tracker and Stock Trading Platform demonstrating Java OOP principles.Developed full-stack applications using Spring Boot and Thymeleaf, integrating database operations and frontend components.Strengthened core programming fundamentals and real-world application development experience. | |
